### About the Camp:

Help! We're stranded! In this 2 and a half day camp, kids will learn essential survival skills and how to thrive while being stuck on a desert island. Leadership and teamwork are key themes, helping them manage the stresses of a castaway life and keep their pals safe. Meanwhile, mum and dad can kick back and enjoy luxury island living - no survival skills required for the grown-ups!

### Good to know:

- Discounts are only available for families who have enrolled at least one child in the camp
- We recommend taking a late ferry back to Singapore on 7th December, to ensure that the children can finish the camp that day
